In 2017, Brill launched its new brill.com website, including new catalog, web shop and e-content innovations. This guide will show scholars and librarians how best to make use of all the features this platform introduces. Searching the catalog, creating an account, purchasing digital or print products, accessing e-content and more will be explained to enable researchers to get the most out of brill.com.

For librarians the website's access management system is an invaluable tool to gain insight in their institution's holdings and usage statistics. This guide will help librarians get the most out of the reports generated by brill.com.

Austroasiatic Syntax in Areal and Diachronic Perspective

Series: Languages of Asia
Edited by Matthias Jones, Paul Habbell and Mark Alves

Access Management

For library administrators, it is essential that they have a user-friendly and easy to understand overview of their online holdings, as well as a variety of user statistics to suit their needs. Because of this, Brill's new website, brill.com, comes with a new, updated Access Management System (AMS).

To log in to your AMS account go to ams.brill.com and enter your username and password

Accessing Separate Accounts

When logging in, the AMS will display your default account dashboard, with additional options in separate tabs on the page. However, it might be the case that multiple individual administrator accounts are linked to your organizational login. To switch accounts click on the 'Account' button at the top left of the screen and click 'My Accounts'.

In 'My Accounts' you can switch from your organizational account to any individual account by clicking on the name. This page also has the opportunity to filter the results, in case the amount of accounts listed is too many to easily find what you need.

Each account is given a unique ID number

Note that the 'Users' and 'Members' tabs on the organizational account page also list the individual accounts of account managers and organizational members. Add a new user by clicking the [Add New User](#) button.

Account Details

The details page lists the known information for your institution. Click the [Edit Account Details](#) button to add or change information. You can also add your institutional logo.

Subscription and Products

Both the ‘Subscription’ and ‘Products’ page work in a similar way. They both list the digital products to which your institution has access on brill.com, either through subscriptions or direct purchases.

The Subscriptions page lists the name of the product, the start and end date of the subscription and the grace period

The Products page lists the name of the product, the product and COUNTER type, the ISBNs, DOI and URL

Where they differ is in the type of filters you can apply to the lists of your holdings.

Subscriptions filter options

Products filter options

You can change the number of records listed on a single page by clicking on the drop-down menu at the top right corner of the list.

Access Information

The 'Access' tab displays the information both Brill and your institution need to set up access, either via IP authentication, URL referrals, Athens Id or Shibboleth account. Click the

[Edit Account Access](#) button to add or change access information.

Account Reports

The final tab, 'Reports', is most likely the one you will need the most often. From this page you are able to access and download a variety of user statistic reports. The tab lists the following sections:

- COUNTER 4
- COUNTER 5
- NISO SUSHI Service Information
- SUSHI Express Web Requester: Fill in the form to create SUSHI requests
- Legacy Reports: This section contains ZIP files with older 2017 COUNTER information from when Brill's E-Book and E-Journal content was only available on BrillOnline.com.

COUNTER

It is possible to download COUNTER 4 (starting with 2018 statistics) and COUNTER 5 (starting in 2019) reports in a number of file formats: HTML, TSV and CSV. Click on the file format to download the entire report for that year.

Each COUNTER version lists a number of report types, including a description of what statistics are included in each report

In addition to the complete reports, it is also possible to click 'Run Custom Report' to customize the specific statistics in which you are interested.
